

Polyflex 25SCR Blue

8 0 0 - 3 4 5 - 6 2 9 4

Shingle Belting's Polyflex 25SCR is a center reinforced version of the Polyflex homogeneous belt types with the following advantages:

An excellent replacement for cover x cover plied belts with the additional advantage of quick splice capabilities

25SCR can be Butt welded, Leister welded, or Finger spliced

Flexible fabric minimizes stretch and is ideal for troughed conveyors

Easily Repaired - damaged belts do not have to be discarded

25SCR is easily edge capped
